SupplyCabinet

Introducing SupplyCabinet™, the foundation of SupplyPro's exciting new Smart Cabinet product line. Engineered for maximum flexibility and low cost-per-SKU, this secure, electronically accessed cabinet can be configured with up to 8 adjustable shelves, allowing you to store, control and manage a wide range of durable and consumable items, including larger items that might not fit in standard vending systems. SupplyCabinet can function as a standalone unit, or seamlessly integrate with other Smart Cabinets, such as SupplyBin™ for bin storage or SmartBin™ for weight-based operation. Achieve unparalleled flexibility with SupplyCabinet — the low-cost inventory management solution.

SUPPLYCABINET DELIVERS

- **Secure Access & Accountability:** Ensure the security of your inventory through controlled access, maintaining accountability for every item.

- **Outstanding Value:** Maximize your investment with a low cost-per-SKU inventory management system, providing exceptional value.

- **Efficiency & Productivity:** Streamline inventory processes to enhance overall efficiency and productivity. Enable item-level shopping of multiple products in one transaction.

- **Scalability:** Effortlessly expand your inventory management capabilities by integrating additional cabinets.

- **Real-time Visibility:** Immediately gain insights into your inventory with real-time tracking and reporting features.

- **Customizable Configuration:** Tailor the cabinet to meet your specific needs by adjusting shelf layouts or incorporating additional cabinet types.
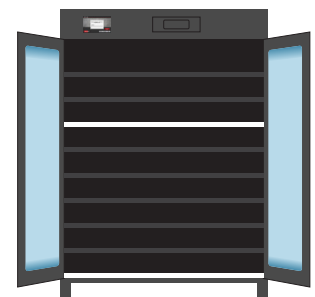

FEATURES

- Shelves can easily be configured to accommodate all sizes of product or changes in product mix.

- Comes standard with an RFID badge reader to identify employee access to cabinet. Optional fixed barcode, magstripe and Wiegand readers are available.

- Tethered handheld barcode scanner for item-level shopping of products.

- Powered by SupplyPro's new Device Driver™ 1 firmware.

- Available as a Main device with industrial touchscreen monitor and badge reader or as an Auxiliary device to other Smart Cabinet devices.

- Optimal product availability insight, utilizing SupplyPro's user-friendly cloud-based software and standard or customized reports and dashboards.
